

BZ-211 Dispersant

Composition: polymer compound

Appearance: Yellow to brown liquid

Active portion: 80%

Application range: industrial coating, wood coating, anticorrosion coating, coil coating

Recommended dosage: inorganic pigment 1.0-3.0%; organic pigment 3-10%; carbon black 15-30%; total amount 0.1-0.5%

Usage: To obtain full effect, add before grinding.

Features and advantages:

1. Good dispersion and wetting effect on pigment, effectively prevent pigment flocculation and return to coarseness in paint;
2. Especially suitable for heavy anticorrosive paint and industrial paint, inorganic pigment dispersion in metal paint system.

Package: 25KG non-recyclable blue barrel.

The lid must be tightly closed after use if the product is not completely used.

Storage: keep away from heat source, light source and avoid light.

Precautions: Carefully evaluate the specific amount in the coating system before use.
