

W-11, Handfeel Wax Slurry

Composition: Modified wax slurry mixture

Appearance: White paste

Active portion: 50%

Application range: Solvent-based coating, Light curing coating, Polyurethane coating

Recommended dosage: Total formula 0.3-1.5%

Usage: It can be added at any time during the production process. Please test it before testing.

Features and advantages:

1. It is a modified wax, with super smooth feeling and durability, especially suitable for high-grade furniture paint.
2. It can increase the scratch resistance of paint film and enhance water resistance.

Package: 25KG or 50KG non-recyclable blue barrel.

The lid must be tightly closed after use if the product is not completely used.

Storage: Keep away from heat source, fire source and light.

Precautions: Please carefully evaluate before use. It is suitable for matte furniture paint and bright light. If used for acrylic resin, please test its compatibility.

The above information is based on the product situation. Due to different producer formula, production process and construction conditions, the above statement is for reference only.
