

OP-8058/GS Smooth Feel Hard Wear Resistant Agent

Composition: Special organic silicon compounds

Appearance: Colorless transparent liquid

Active portion: 100%

Application: Light Curing/Bipropyl/Self Drying/Baking Coating/Wood Coating/Industrial coating.

Recommended dosage: Total formula 0.2-1.0% (test the most appropriate dosage before use)

Usage: can be added at any time in the production process, please test before use.

Features and advantages:

1. The new improved hand agent has the advantages of not foaming, eliminating stagnant bubbles and pinholes to improve leveling.
2. It has a smooth hand feel, improves the wear and scratch resistance of the coating, and has the function of eliminating hand sweat on the paint film.

Package: 25KG non-recyclable blue barrel.

The product is not completely used. The lid must be tightly closed after use.

Storage: keep away from heat source, light source and avoid light.

Precautions: Carefully evaluate the effect on solubility and crater before use.

The above information is based on the product situation. Due to different producer formula, production process and construction conditions, the above statement is for reference only. The company does not assume any legal responsibility, please test the dosage before use. The company reserves the right to improve its products and any changes in specifications will not be notified in advance.
